PUBLIC RELEASE

3/18/2020
1500 Hours

Social Distancing

We want to re-emphasize the importance of social distancing, especially to the younger population who may have little to no symptoms but could transmit the virus to the more susceptible populations of the community. We must all adopt the practice of social distancing and practice it every day. It will be difficult, but it is necessary to limit the spread of the virus and keep our community and its members safe. In addition, please limit all outside interactions and shelter-in-place as much as possible. Limit outings to only food markets, doctor appointments and any other necessary outings.

Testing

Anyone with symptoms of coronavirus wishing to be tested should contact their primary care physician. If you do not have a primary care physician, contact the Crozer Hotline at 610-447-6730.

Please consult the following for additional information:
